

RoutingKit::LocalIDMapper

```
classDiagram
    class RoutingKitIDMapper["RoutingKit::IDMapper"]
    class RoutingKitLocalIDMapper["RoutingKit::LocalIDMapper"]
    RoutingKitIDMapper <|-- RoutingKitLocalIDMapper
```

The diagram illustrates a class hierarchy. At the bottom is a gray-shaded box labeled "RoutingKit::IDMapper". A blue arrow points vertically upwards from this box to a white box at the top labeled "RoutingKit::LocalIDMapper". This indicates that "RoutingKit::LocalIDMapper" inherits from "RoutingKit::IDMapper".
